

# Questions to Ask Your Doctor About Having Radiation Therapy

- How will my **radiation therapy** be planned? What types of scans will be used?
- What **part(s) of my body** will the radiation target?
- Where will I receive my daily radiation **treatments**?
- How often will I receive radiation therapy?
- How much **time** will each treatment take?
- How much of the healthy lung will also receive radiation therapy?
- Is it possible for me to receive chemotherapy with my radiation therapy? If so, what are the added side effects of giving the chemotherapy at the same time, compared with one after another?
- Who should I **contact** about any side effects I experience? And how soon?
- What are the **side effects** of radiation treatment? Are there any restrictions while I receive radiation treatment?
- Will I be able to go to and return from this treatment on my own, or should I find someone to help me?
- How much will this treatment **cost** me? Are there less expensive treatment options that work as well?
