

# Questions to Ask Your Doctor During Treatment

- Is there anything I can do to help manage **side effects**?
- How do you assess treatment response during my treatment? (How do you know if my treatment is working?)
- What **symptoms or side effects** should I tell you about right away?
- Do I need to change what I eat during treatment?
- Are there any limits on what I can do as far as work or exercise?
- Am I safe to be around others or in **public spaces**?
